GOOD PRACTICES GUIDE FOR TOURISM

Remember to follow all the directions from tourist guides and transport operators when inside transport units.

Remember to always carry alcohol-based HAND SANITIZER FOR PERSONAL USE.

It is important to follow the established protocols for the tourist activities in which you engage.

If you are a person with risk factors due to diabetes, asthma, high blood pressure, among other conditions, avoid engaging in activities that would expose you to direct contact with other people.

ALWAYS MAINTAIN YOUR SOCIAL BUBBLE.
